Introduction

About Founders Pledge

We're a global nonprofit empowering entrepreneurs to do the most good possible with their charitable giving. We equip our community of members with everything they need to maximize their impact, from [high-impact giving recommendations](#) and [one-to-one philanthropic advising](#), to a [tax-efficient Donor Advised Fund](#) and [events with fellow entrepreneurs and experts around the world](#). As of April 2025, our 2,000+ community has **pledged over \$11 billion** to charity, and **donated more than \$1.5 billion** to the charitable sector.

We're grateful to be [funded by](#) our members and other generous donors.

Donor Advised Funds

Think of a Donor Advised Fund (DAF for short) as a charitable bank account. It's a **flexible and efficient giving vehicle** for you to support nonprofits of your choice on the timeline that's right for you. DAFs also **maximize how much you are able to give** by accepting a wide variety of tax advantaged assets, including private and public stock, allowing you to invest those assets so they may grow tax free.

Founders Pledge UK DAF

A Founders Pledge DAF is quick to set up and easy to maintain. You have the option to choose either a Premium DAF account or Core DAF account. Most DAFs are portable and can be transferred to another DAF provider such as Founders Pledge.

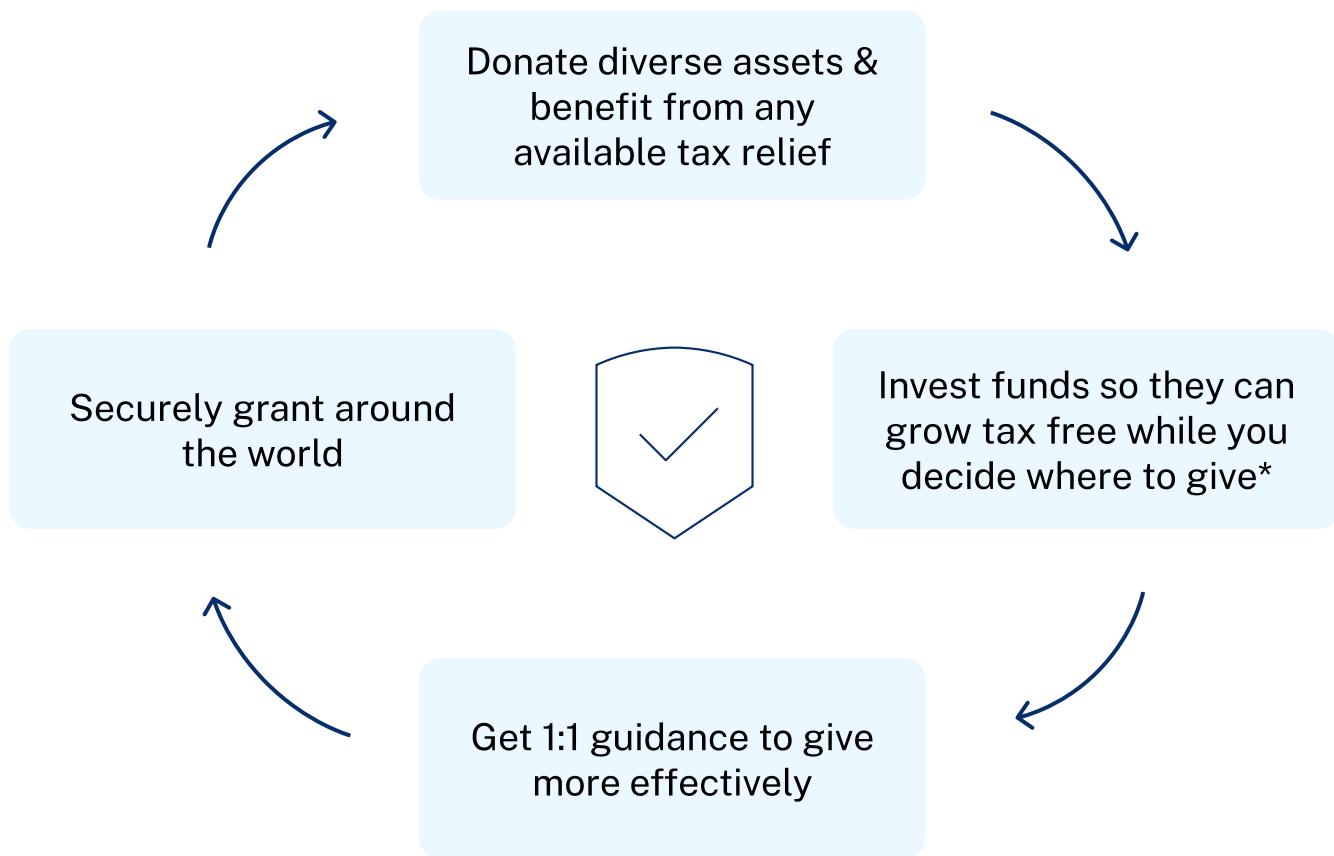

A Premium DAF account offers a range of investment options for your DAF funds and charges a modest administrative fee. A Core DAF account does not charge an admin fee, but does not offer investment opportunities. Both our Core and Premium DAF accounts are subject to granting processing fees (see page 10). Core DAF assets will be invested in low-risk liquidity funds, and the gain or loss is allocated to Founders Pledge's operating expenses. The only time your DAF balance will change with a Core DAF Account is when you make a contribution or make a grant.

You can make contributions and grants at the click of a button thanks to our **Member App**, where you can also oversee your transaction history and any applicable investment returns. You can give important partners, including family members and external advisors, access to your DAF to support joint decision making and seamless transactions. Meanwhile, our expert team of grant makers take care of the rest behind the scenes.

Read through the rest of the pack to find out more about how you can maximize your impact with a Founders Pledge DAF.
